Integration Worksheet

Client name: _____

Client address: _____

CONTROL EQUIPMENT: (processors, remotes, keypads, models of tablets/phones, etc.)

_____

_____

_____

EQUIPMENT BEING CONTROLLED: (models of receivers, bluray, cable/sat boxes, etc.)
   Check the box if you would prefer I decide how equipment is controlled (IR/RS232/IP)

IR: _____

_____

_____

_____

_____

RS232: _____

_____

_____

IP: _____

_____

_____

ZONES: (zone names and if any zones are linked)

_____

_____

_____

NETWORK:
Check the box if I am setting up the network (skip anything with an *)

SSID: _____

Password: _____

Router password: _____ (leave blank if default)

Default gateway*: _____ (e.g. 192.168.1.1, 10.0.10.1, etc.)

DHCP range*: _____

NETWORK EQUIPMENT: (modem, router, access point, etc)

_____

_____

SECURITY INTEGRATION: (DSC, Ademco, GE, etc.)

_____

Number of partitions: _____

Note: master code may be needed depending on the security panel used.

IP CAMERA INTEGRATION:

Check the box if I am setting up the cameras (skip anything with an *)

Camera models: _____

Model*	Location*	IP Address*
_____	_____	_____
_____	_____	_____
_____	_____	_____
